### ABOUT ME

My name is Cobus Reyneke. I love finding data's intricate connections and creating stories and visualizations to help others better understand them. In my free time, I participate in data projects and competitions and especially enjoy using Power BI to visualize data. I look forward to more opportunities to organize, interpret, and visualize data to create meaningful insights.

### RELEVANT EXPERIENCE

#### > OLYMPICS DATA ANALYSIS SQL

Implemented SQL analytical skills to clean Olympics data and answer 20 questions relating to the data.

#### > CASE STUDY: ANALYZING CUSTOMER CHURN Power BI

This case study followed the steps of cleaning, analyzing, and interpreting data from a fictitious cell company to discover possible reasons for high churn rates in certain demographics.

#### > CASE STUDY: HR ANALYTICS Power BI

This case study utilized various Power BI skills to import, analyze, and visualize Human Resources (HR) data.
